INDEX TO VOLUME XVI

July to December, 1919

Note—Illustrated articles are denoted by an asterisk (*), book notices by a dagger (†). Titles are often abbreviated. They are indexed under their most important words, or, if no word be distinctive, under their first one (except "A," "The," etc.), or under some topical word not found in the title. This volume is complete in twenty-three numbers owing to the fact that certain numbers so designated on their individual contents pages have been combined.

Following is a list of the pages included in the several numbers of the volume by date:
